LUNA ASSASSINATED.

Killed by the Guards of Aguinaldo at His Headquarters.

HIS AID ALSO SLAIN.

They Become Involved in a Discussion and Are Bayoneted to Death. Lawton's Men in a Hot Fight with Filipinos.

Manila, June 13.—Information, believed to be reliable, has reached here of the assassination of General Luna and his aide de camp, Lieutenant Pasco Ramon, on June 8, by Aguinaldo's guard at the headquarters of Aguinaldo. Luna and Ramon, it appears, went to the Filipino headquarters to confer with Aguinaldo, got into an altercation with the captain

GENERAL LUNA.

of the guard and one of them drew a revolver. The guard then killed Luna and Ramon with their bayonets.

Fighting at Las Pinas continued hotly all today. General Lawton called out the whole of his force of 3000 men at 5 o'clock and he was only able to push the insurgents back 500 yards to Zapote river, where they entrenched. The insurgents resisted desperately and aggressively. They attempted to turn the left flank of the American troops.

The American loss is conservatively at 60. The battle is still in progress.

At daylight the rebels at Cavite Viejo dropped two shells from a big smooth bore gun, mounted in front of a church, into the navy yard. The only damage done was the splintering of a huge shears mole. The gunboats Callao, Manila and Moquito then proceeded to dismount the gun.

After silencing the big gun at Cavite Viejo, the gunboats ran close along the shore, bombarding the rebels' position. So vigorous was the fire that the gunboat Helena joined the small gunboats, and the Princeton, Monterey and Mo nadnock dropped occasional big shells among the rebels.

This apparently only served to incite the rebels, as they kept up an incessant fire of musketry and artillery near the mouth of Zapote river, two miles north of Bakoor. The fire of all the seven warships were concentrated at this point shortly after noon, when the upper bay presented the appearance of being a scene of a great naval battle. The insurgents were eventually forced to abandon their guns after holding out for about four hours, only to be confronted by General Lawton's force on land and in their rear where there were heavy fighting.

Beyond the destruction of several buildings along the water front, the effect of the bombardment is not known.

ALL HE HAS ASKED FOR.
Otis Given All Force He Thinks Necessary in the Philippines.

Washington, June 13.—General Otis has all the troops he has ever asked for, is General Corbin's comment whenever he is besieged in behalf of persons urging the qualifications of men for commissions in command of volunteers. Scarcely an hour passes that the assistant general does not receive dispatches, letters or personal appeals from those who argue that advantage ought to be promptly taken of the permission given by congress to call out 35,000 volunteers for a year's service in the Philippines.

Half his time is taken up listening to plans for quickly ending the Filipino revolt by landing 30,000 fresh soldiers at Manila and crushing out the opposition with them. In the face of all the pressure that has been brought to bear the president approves the logical military stand taken by General Corbin that so long as General Otis is in command he is in better position to judge the necessities of the situation and the character of the operations than men of infinitely

less experience and untried judgment at a distance of 8000 miles.

But a speedy reinforcement of General Otis by 35,000 men is utterly impracticable for lack of transportation. Such a force could be equipped and uniformed in a week with the improved facilities and it could be assembled and drilled into fairly good shape in a couple of months, but it could not be landed in Manila in less than four months or much earlier than congress would have an opportunity to increase the regular

army to dimensions that commensurate with the dignity of the nation and its needs at home as well as in the colonies. Since Dewey's squadron steamed into Manila bay the last night of April a year ago, 23 army expeditions have crossed the Pacific and four have gone by way of the Suez canal to hold the new possessions. The expeditions have carried 1279 officers and 37,287 men; but nearly 500 additional officers have gone out to Manila and nearly 2000 men who did not accompany the regular expeditions. Of the total force up to date scarcely 1000 have returned.

RUINED BY DROUTH.

Portions of New England States are Seriously Affected.

New York, June 13.—New York, New Jersey and the adjoining parts of Massachusetts, Connecticut and Pennsylvania are suffering from the most severe spring drought that has visited these sections in years. Since the snow melted and the frost came out of the ground there has been hardly one good drenching, soaking rain over that region and for the last three or four weeks there have been only infrequent and brief thunder showers. For a hundred miles around New York City, the dust lies deep upon country roads, streams run low, lawns and pastures are brown, leaves are falling from trees, green fruit is shriveling on the boughs, the soil is hard, of an ashy greyness and hay is scant and dying at the roots.

From Long Island come reports that strawberries will not mature, the plants having already put on the color which indicates the end of the bearing season. Blackberries and huckleberries give very little promise. Water is low and forest fires have started in Suffolk county.

In the northern part of New York and Albany, Rensselaer, Schoharie and Green counties all early vegetables present a stunted appearance. Farmers in Orange and Sullivan counties have given up looking for rain and are cutting their short hay which has already begun to cure standing.

New Jersey is in bad condition, crops are badly damaged and unless rain comes in great quantities inside of a week the entire spring planting will prove fruitless. Fortunately New York City has enough water stored to obviate all fears of a famine in the boroughs of Manhattan and the Bronx, but if no rain should fall within this month, the citizens of other boroughs may get orders to economize in their use of water.

San Saba Feud Revived.

Austin, June 13.—Word has reached here of the assassination in San Saba county of two of the principal witnesses in the murder cases from that county now pending in the district court. The names of the two men, who are said to have been waylaid and assassinated, are not given in this report. The feud between the people of San Saba county has been actively waged for the past 10 years, over 30 murders having occurred there within that time. The detachment of state rangers who have been stationed there for several years to preserve order were recently withdrawn and the old trouble has been revived.

Special Cabinet Meeting.

London, June 13.—Special importance is attached to a cabinet council which took place here. It lasted a couple of hours and it is believed the ministers finally determined upon a policy to be adopted toward the Transvaal. Secretary of state for colonies, Joseph Chamberlain, was expected to make a definite statement on the subject to the house of commons, unless the rumors of resignation turns out to be true.

NEWS IN BRIEF.

Fire at Ardmore, I. T., on Monday destroyed several buildings, causing a loss of about \$12,000.

David Taylor, a farmer, was murdered at Belmont, O. T., by an unknown man. Robbery the object.

Mr. Bland's condition is somewhat improved.

Joe Wolcott whipped Henry Fisher at Baltimore, Md., in the eleventh round.

Al Chambers, a well to do farmer near Lebanon, Tex., tried to kill his mother and then suicided.

Bessie Malloy, who was injured in the cyclone at Sioux City, Ia., on Sunday, is dead.

The Texas Midland may build a line into Dallas.

An explosion of a torpedo reached a destroyer at the mouth of the Rio Grande, June 13.—Two missing.

Hopkins at the navy department in a local dance at Castro, Chili.

Calvin at Castro, Chili.

"TIME IS MONEY."

"The Longest Way Round Is Sometimes The Quickest Way Home."

These wise old saws apply to the new fast train service now in effect via the Great Rock Island Route. While not the short line everywhere, we "get there," which is the main point to be considered.

A whole business day saved is one argument. A maximum of comfort by reason of thorough service, modern equipment; rock last; in short, an up-to-date railway, are several other arguments to assist you in deciding how and via what route to purchase tickets.

The new schedule is as follows: Leave Fort Worth, 8:25 a. m.; arrive Lincoln, 7:10 a. m.; arrive Omaha, 9 a. m., connecting at latter point with train through Iowa; arriving Des Moines, 4:39 p. m. CHAS. B. SLOAT, G. P. A., C. R. I. & T. Ry., Fort Worth, Tex.

degree of C. E.

The exercises of the evening in-
cluded an exhibition drill by the
Ross Volunteers, and the usual
graduation dress parade, both of
which were witnessed by an im-
mense crowd.

The commencement hop last
night was one of the most brilli-
ant in the history of the College,
and one of the most largely at-
tended.

The public exercises of the
Alumni, held at the assembly hall
Monday night, were very brilliant
from an oratorical standpoint.
The speakers were President L.
L. Foster, Hon. Dudley Wooten,
Capt. Sloss, Mr. Trenckmann, E.
W. Hutchinson, Willett Wilson,
Capt. J. F. Nichols, the last five
speakers being graduates of the
College. Their addresses covered
a wide range of thought and re-
search some of them dealing with
the history of the College, its
present status and future, while
others essayed a general discussion
of issues and problems of the day.
The Annual Alumni banquet fol-
lowed at the mess hall, and here
with the addition of a tempting
menu the oratory was resumed
and the number of speakers and
subjects increased.

Gov. Sayers responded to the
sentiment "Texas" in a most
eloquent manner, showing the his-
tory of the state, its progress on its
sailed at 11 o'clock, this port. The ex-
an enthusiastic farewel
sembled and was saluted

all educational interest of the state
and dwelt at length on the useful-
ness of the A. and M. College
which stands unsuited in its own
field of labor in Texas, and is
known everywhere as one of the
great A. and M. Colleges of the
Union. The governor is very en-
thusiastic about the work going on
here. He has not visited College
before since 1880. While review-
ing the corps yesterday morning
he remarked there ought to be
2000 boys here.

In the individual competition
drill yesterday morning the best
drilled men of their respective
companies were as follows: A com-
pany, Cadet Garbade; B company,
Cadet Bruce; C company, Cadet
Beal; D company, Cadet Bailey.
Best drilled man in battalion, Ca-
det Garbade.

PRESENTATIONS.

Company A to Capt. Kyle, gold
watch, presentation by Col. L. L.
Foster.

Corps of Cadets to Capt. Kyle,
senior captain, gold watch chain,
presentation by P. L. Downs of
Temple.

Miss Foster, sponsor, presented
a medal to Sidney Beal, best drill-
ed man in company C.

Company C presented to Capt.
E. L. Martin, a gold watch, pre-
sentation by J. S. Radford.

Company D to Capt. A. M. Sloss
a gold watch, presentation by E. J.
Smith of Denison.

Company B to Capt. R. J. Poul-
ter, a gold watch, presentation by
Willett Wilson of Port Lavaca.

The competition for best drilled
company this afternoon resulted in
a victory for Company A, which
made a score of 97 5-10, time 11
minutes. The judges were Capt.
Nichols of Greenville and Capt.
McCormick of Houston, both grad-
uates of the A. and M. and volun-
teer officers in the late war with
Spain.

Following the excellent exhibi-
tion drill by the Ross Volunteers
a company competition drill was
held in which W. Buhler of Vic-
toria was the winner. Miss Nellie
Smith, sponsor of the company,
presented a medal to Mr. Buhler.

KURTEN NEWS.

Rev. W. T. Wood of Wellborn,
preached here Saturday and Sun-
day.

We had a large crowd to singing
Sunday evening.

Ed. and Will Blach of Wheelock
were here Sunday.

We have been blessed with a
fine rain once more.

Tola Tobias of Edge spent Sun-
day in Kurten.

Mr. Bush of Benchley attended
church here Sunday.

A horse jumped and threw Tal
Tobias Sunday against a tree and
bruised him considerably.

A small crowd went on a fishing
tour on the Navasota river last
week.

Mr. Voce Andrew spent Sunday
at Willow Hole.

A good many of the young folks
of this community attended the
commencement exercises of the A.
& M. College this week.

Paul Edge went to Houston last
week.

The choir will meet at Kurten
Hall Saturday. Everybody is in-
vited to come and take part in the
singing. WHITE ROSE.

Proposal.

Sealed bids will be received to July
18, 1899, by the undersigned committee
for the furnishing of 80 cords of good
split wood; 60 cords for white school
and 20 cords for colored school, bids
to be filed with J. A. Myers. Nothing
but good wood wanted. Committee
reserves the right to reject any and all
bids.

J. A. Myers, chairman,
M. Parker,
M. H. James,
173 36 Committee.

NOTICE.

Notice is hereby given that the water
and electric light service of those who
have not paid their bills will be cut off
without further notice unless said bills
are paid on or before Wednesday, June
14, as further indulgence cannot be al-
lowed by the Company 169
Bryan Water Light & Power Co.

WEDNESDAY, JUNE 14, 1899.

COMMENCEMENT DAY.

Graduating Exercises—Im-
mense Crowds—Distin-
guished Visitors Etc.

The exercises of Commencement
day proper opened at 8 o'clock yester-
day morning with a review of
the battalion by Gov. Sayers and
General Waties, who both took
occasion to compliment the corps
very highly. A large number of
spectators were present, including
a number of distinguished visitors
and many ladies.

The attendance of visitors for the
whole three days was very large,
reaching its height yesterday when
the assembly hall was fairly
packed up and down stairs. The
usual exercises opening with prayer
and interspersed with music, were
carried out. W. H. Whisenant
read a thesis as first honor gradu-
ate. The valedictory address was
delivered by Mr. E. J. Kyle of
Kyle, elected by the first class,
and the response by Mr. C. P.
Rogers, also of Kyle, chosen by
the second class, both speeches be-
ing excellent in point of subject
matter and delivery.

The annual commencement ad-
dress by Hon. R. E. Prince of
Corsicana, a member of the twen-
ty-sixth legislature, was delivered
preceding the valedictory and the
response, the orator being called

away on the noon train by impor-
tant business.

Mr. Prince is a polished orator
and in his address handled in an
able manner and from a truly pa-
triotic standpoint the important
issues now confronting this repub-
lic.

The president of the board of
directors conferred degrees on the
list of graduates, as follows:

Agricultural Course—S. E.
Barnes, Brighton; L. F. Bland, Col-
lege Station; W. F. Dwyer, San
Marcos; A. M. Sloss, Taylor.

Civil Engineering Course: Chas.
D. Evans, Austin; A. C. Love,
Franklin; E. L. Martin, Kyle; J.
B. Sterns, Houston.

Horticultural Course—C. C. Har-
rison, Bédias; R. J. Poulter,
Howard; E. J. Kyle, Kyle; W. H.
Whisenant, Kyle.

Mechanical Engineering Course
—E. H. Astin, Mumford; C. T.
Whittle, Sulphur Springs; H. A.
Brewer, Lytton Springs; T. O. Bul-
lard, Britton; R. W. Campbell,
Marshall; R. W. Cousins, Austin;
R. C. Carson, College Station; T.
L. Horn, Rhea Mills; M. Lewis,
McKinney; Clayton Soles, College
Station.

Governor Sayers addressed the
graduating class yesterday morn-
ing congratulating its members on
their diplomas and urging upon
them the remembrance that each
one now becomes the guardian
not only of his own honor,
but that of this College and
the State as well. He declared
his confidence in the boys of Texas
and said he had no fear but that
the members of this class would
acquit themselves with honor
along the line of duty to God, to
their country and themselves.

Assistant Profs. E. W. Kerr and
C. E. Burgoon received the post
graduate degree of M. E., and Mr.
E. B. Cushing of Houston, the

THE CELLAR,

Sink, garbage box, cesspool, etc. need attention now. Much of the sick-
ness in the warm months is due to lack of disinfection. Disinfection
now may save doctors bills in the future. Be on the safe side; use our

Carbolic Disinfecting Powder.

It covers the want of a powerful disinfectant in powder form. It is com-
posed of valuable materials, each having its own peculiar disinfecting
properties, in combination with the well-known anti-septic, carbolic
acid. We especially recommend it to disinfect sick rooms, drains, sew-
ers, cesspools, stables, etc., as it does not mask, but entirely destroys all
noxious odors and vapors and poisonous germs of disease with which it
comes in contact. No soiled hands or woodwork from its use. Price,
25c per Pound Package.

containing \$30.00 in ten and twenty dol-
lar bills. Liberal reward for return to
D. G. Edmerson. 169

Mrs. M. Bonnevillier Jr., and little
daughter, left yesterday for New Or-
leans and St. Louis.

THE COLORADO RIVER.

Vast Damage Done to Towns, Bridges
Along the River.

Austin, June 13.—Damages from
flood along the Colorado river are
usually coming to light. The river is
the height it did in 1884, but did not
exceed it.

At San Saba two lives were lost and
many persons taken from perilous po-
sitions with boats. The loss to property
there is estimated at \$25,000 and loss of
live stock placed at \$100,000. This does
not include the many crops that were
washed away and ruined.

From this place to Smithville the loss
to property and crops is immense. No
estimate can be made until the waters
recede.

At Menardville the whole town was
under water. The main street of the
town was seven feet deep in water and
one foot of water stood upon the court-
house doot. Several buildings were
washed away. Crops were swept away
on both sides of the town, of which no
estimate can be made. The loss in the
town will foot up \$12,000 or \$15,000. A
Mexican was drowned there.

The Colorado river is steadily rising
at Columbus and is now 30 feet above
low water mark.

A heavy drift lodged on the north
bridge caused the entire structure to
give way with a mighty crash and wash
away. It was erected in 1884 at a cost
of \$25,000. Heavy drifts also lodged on
the east bridge and the railroad bridge,
but with the aid of a large force of men
they were saved without damage.

NEGROES LYNCH NEGROES.

Two Were Strung Up and Officers Save
the Nine Others.

Ocala, Fla., June 13.—Two negroes
were lynched at Dunnellon Sunday
night by a mob of their color. Some
weeks ago Marshal Paine was shot by a
negro. Saturday the negro was cap-
tured and returned to Dunnellon. When
it is supposed some negroes were em-
ployed to take him down to the river
and drown him. Sunday evening the
laborers of the Dunnellon phosphat
mine heard of it and at once organized
to mete out similar justice to those im-
plicated. They succeeded in lynching
two of the men and were only prevented
from lynching nine others by the ap-
pearance of Sheriff Nugent and an armed
posse, who went down in a special train
from Ocala.

Planned to Attack Troops.

Lexington, Ky., June 13.—A Bar-
boursville special to the Morning Herald
says:

The Whites and Howards planned an
attack on the troops Sunday, five miles
from Manchester on the way to Bar-
boursville. Thirty men followed them
out, 25 appeared at one place and 15 at
another, while 15 were in the knobs.
The plan was to attack from the rear.
The troops were hurriedly thrown into
line at the first signal. Captain Cal-
houn's company, who were escorting
prisoners, threw them under the em-
bankment. Captain Wilson threw out
skirmishers and a Gatling gun was
placed for action. The attacking party
dispersed in all directions and the troops
were landed safe at Barboursville.

Whole Valley Inundated.

Violet, Wis., June 13.—One of the
heaviest rain, wind and hail storms in
many years occurred here and almost
the entire Kickapoo valley is inundated.
A cloudburst occurred on Bear creek, 10
miles northeast of here and the entire
valley was swept by a raging torrent.
Cultivated fields were covered and al-
most ruined, some being washed to a
depth of six feet. Mill dams were washed
out, bridges gone and traveling is made
impossible. It is the largest flood since
1881.

THE FIRST NEWS

Places the Dead and Injured by the
Storm Between 250 and 500.

Stillwater, Minn., June 13.—The vil-
lage of New Richmond, Wis., was al-
most wiped out of existence late yester-
day by one of the most severe cyclones,
followed by fire, that ever visited that
locality. It carried ruin and death in
its path, and as yet it is impossible to
give the details, though it is believed
300 persons were killed.

The news of the disaster was brought
here by J. A. Carroll, a traveling man
from Portage, Wis., who was stopped at
the Nicollet House in New Richmond
when the cyclone struck. He saw the
funnel shaped cloud as it came up and
took refuge in the basement of the hotel,
which was completely wrecked together
with every other business house in the
town. Terrible sheets of rain followed
the cyclone.

Mr. Carroll and his comrades succeed-
ed in removing the proprietor, Charles
McKinnon, wife and child, from the de-
bris. They also removed one of the
laundry girls, who was so seriously in-
jured that she will probably die and
two men named Barrett and Newall,
who were very severely injured.

Fire followed the cyclone and many
of the injured believed to have been
cremated.

Strikes Close to Hudson.

Hudson, Wis., June 13.—One of the
most terrific cyclones ever witnessed by
the citizens of Hudson passed through
the country here at about 5:30 o'clock
yesterday evening. It formed in a water-
spout four miles south of Hudson on
Lake St. Croix. It was witnessed by
hundreds of people and seemed to fol-
low the lake and be making directly for
the city, but about two miles south it
veered to the east and left the lake and
crossed the country. It was about 20
rods wide and destroyed everything in
its track. Much farm property was de-
stroyed and a great deal of live stock
was drowned.

On the farm of H. S. Mattison not a
building, wagon, tree or piece of ma-
chinery is left whole. The house was
swept from its foundation and nothing
remained but the floor, which covered
the cellar, in which the family sought
refuge.

Telegraph and telephone wires are all
blown down and adjoining towns can-
not be heard from.

Damage at Tomah.

Tomah, Wis., June 13.—The storm
here was the hardest and the water is
the highest ever known. All the high-
way bridges on the Lemonweir river
within 10 miles of Tomah are out and
all the bridges on Council creek except
one are gone. Railway tracks are wash-
ed out in all directions and trains have
been unable to arrive or depart. Two
railway bridges and miles of track in
the city limits are now being replaced
and repaired. All farms in the Lemon-
weir valley are inundated and much
damage to crops has resulted.

Business Houses Undermined.

Sparta, Wis., June 13.—Much damage
was done here by the heavy rainstorm.
Beaver creek, running through a por-
tion of the city, undermined the C. R.
Conever brick building and it fell with
its contents into the flood, the occupants
barely escaping. The C. E. Rich block
is badly undermined. The approaches
of five iron bridges in the city limits
were washed away. Crops were dam-
aged and many head of live stock were
drowned. The Sparta and Viniqua
railway will not be able to run trains
for some days.

Six Inches of Rain.

Mankato, Minn., June 13.—Six inches
of rain is the record here for 24 hours.
It was the worst storm ever known in
this section and has washed stone cul-
verts, newly graded streets and retaining
walls in this city, made country
roads impassable, caused all streams to
leave to their banks, flooding large
tracts of farm land and completely ty-
ing up railway traffic. Similar condi-
tions were experienced at other nearby
towns.

Relief Train Goes.

St. Paul, Minn., June 13.—A relief
train with physicians and nurses for
New Richmond, Wis., left here over the
the Omaha road. At Hudson it was
planned to ferry the party past the
washouts in the track and they will be
taken the balance of the way by rail.

Railroads Suffer.

St. Paul, June 13.—Owing to wash-
outs along their lines the various
Chicago trains are held here. The
Omaha road is washed out near Hudson.
The Milwaukee and St. Paul has lost
several bridges and considerable track
near Wabaska, Minn. In Wisconsin
the Burlington is blocked by a washout
near Trempealeau, and the Wisconsin
Central line extends only beyond Still-
water, Minn. There are also a number
of blocked places on the various branch
lines.

A. K. Ward May Yet Go Free.

Memphis, June 13.—Two cases against
A. K. Ward, alleged forger of \$250,000
in notes, were reversed by the supreme
court. Ward fled to Honduras, was
captured and brought back here. After
three trials he was convicted. There
were 80 indictments against him.
The two cases reversed by the supreme
court were tried in different tribunals.
These reversals tend to the belief that
Ward will ultimately go free.

Newark Reaches Chili.

Washington, June 13.—A dispatch re-
ceived at the navy department an-
nounces the arrival of the cruiser New-
ark at Castro, Chili.

An Argument!

CAN BE EASILY settled as to
whether we keep the best Teas,
Coffee, Canned Goods, etc., by
giving us a trial. We keep every-
thing in our stock of a standard
superior quality, and everyone
agrees that we "fill the bill" to
their entire satisfaction for ex-
cellence, low prices, and prompt
service at all times.

LOSS OF LIFE GREAT.

Nearly Two Hundred Killed by the
Storm at New Richmond.

HUNDREDS WOUNDED

The Center of the Town Destroyed and
the Wreckage Takes Fire, Cre-
mating Many Persons.
Only Meager Details.

New Richmond, June 13.—One hundred and seventy-five killed and four hundred wounded, is the best estimate of the casualties of last night's storm. This estimate is based on information received by General Manager Scott, of the Omaha railway.

The relief train from St. Paul arrived early today. On board were 20 nurses and 13 doctors. The storm struck the Omaha railroad line at Boardman, Wis., and followed the track to New Richmond. It passed through New Richmond from the south to the north, leveling the center of the city. People were penned in and scores buried alive. On the street from the depot starting with Henry Beal & Co's. store through to Hotel Nicolet on both sides of the street, every building was destroyed.

The list of the dead up to 9 o'clock this morning was as follows: Miss Abbie Williams, Mrs. Grinton, Mrs. Gould, George Stock and 14 unidentified bodies lying in the Congregational church.

The reported deaths not confirmed are W. E. Bixby and two daughters, S. N. Hawkins, Mrs. Patton, Mrs. Carey, Miss McKennon and J. B. Hicks.

WIDESPREAD DESTRUCTION

New Richmond Suffers Most, but Other
Places Sustain Loss.

St. Paul, June 13.—The terrific storm along the upper Mississippi river and tributaries in Wisconsin and Minnesota has done enormous damage. The worst destruction appears to have been at New Richmond, Wis., where the frightful twister struck just before 6 o'clock Monday night. How great the loss of life it is impossible yet to tell, the storm having effectually destroyed all communication in the stricken district. Reports that come in state the total number of killed and injured range between 250 and 500. The town at the time of the storm was crowded with people who had come from the surrounding country to attend a circus performance.

New Richmond is on the Wisconsin Central line and on the Duluth and Superior branch of the Omaha road. It is 30 miles to St. Paul and is in the heart of a rich farming section of St. Croix county, and quite a business center. There are two principal streets crossing each other at right angles, the more important ones running east and west. It was through this street the storm passed. The thoroughfare is three miles long. The damage to railroads, telegraph and telephone lines and crops is widespread.

Next to New Richmond the most severe damage done by the storm is Hudson, Wis., and also LaCrosse, Wis. In the vicinity of the first named town the tornado and cloudburst destroyed the wires, hay stacks, unroofed residences, barns, and outbuildings all along its path.

At LaCrosse it was the worst storm in 17 years. Nearly 5 inches of rain fell; the river rose so rapidly that 400 people living in the lower portion of the city were driven from their homes. Over 100 head of livestock drowned.

Nearly every bridge on the LaCrosse Valley road is gone.

At Mankato, Minn., 6 inches of rain fell. Winona, Minn., Sparta and other towns in adjoining territory are partly under water and much damage done.

Faribault, Minn., El Roy, Viola, Rockton and Tomah, also suffered severely and have the same story to tell of flooded cellars and streets, heavy damage to crops, hundreds of head of cattle drowned, numerous washouts on railroads, bridges washed away and wire communication paralyzed.

Two Hundred Estimated Dead.

Milwaukee, June 13.—A dispatch was received here at 2 o'clock this morning from Jewett Mills announcing the arrival there of the Wisconsin Central train. A. M. Cutter in the employ of the Central, sent a dispatch to local officers of the road saying that the town of New Richmond is in total destruction and that the estimated number of killed will reach 200. Many of the houses were consumed by fire after the cyclone.

Many of the people killed were attending the circus, which was showing there.

Another Estimate of the Dead.

Eau Claire, Wis., June 13.—Two men, W. W. Beeby a druggist, and Edward Lugert a traveling man from St. Paul, who drove from New Richmond to Roberts and to Eau Claire, say a tornado had struck New Richmond and from 250 to 500 people were killed or seriously injured.

Another Town Destroyed.

Wisconsin Junction, Wis., June 13.—A courier from Boardman reports that the whole town has been wiped off the face of the earth and many of the inhabitants killed and injured.

FRANCE'S NEW CABINET.

The Men That Will Compose It Under
Premier Poincare.

Paris, June 13.—President Loubet conferred with the president of the senate, M. Fallieres, and president of the chamber of deputies, M. Deschanel, early this morning and impressed them with the necessity of quickly ending the cabinet crisis. It is believed that Poincare has been asked to form a cabinet. It is understood he has already undertaken the task and even said he had already selected a cabinet to be composed as follows: M. Poincare, premier and minister of public instruction; M. Delcasse, minister of the interior; M. Bourgeois, minister of foreign affairs; M. Krantz, minister of war; M. Rouvier, or M. Delomb, minister of finance; M. Waldeck, or M. Monis, minister of justice; M. Lannesson, minister of commerce; M. Sarrien, minister of public works; Senator Jean Dupuy, minister of agriculture.

Four Years For Christiani.

Paris, June 13.—Baron Christiani, who assaulted President Loubet with a cane at the Autel races on June 4, has been sentenced to four years imprisonment. Christiani was tried before the correctional police court. The judges deliberated 35 minutes and delivered judgement saying, according to the articles in the penal code under which Christiani was sentenced he was liable to from two to five years imprisonment. There was a general exclamation of surprise when the prisoner was sentenced to four years imprisonment and also to pay the costs of the trial. Christiani listened unmoved to the sentence.

France Again Without A Cabinet.

Paris, June 13.—Because the chamber of deputies would not support the desires of the cabinet, the cabinet members tendered their resignation to President Loubet. The resignations were accepted.

THAT HOME FOR DEWEY.

It Is His Desire It Should Be Given the
Soldiers and Sailors.

New York, June 13.—While unwilling to accept a home for himself, Admiral Dewey is desirous that the money collected for his benefit, be used in the establishment of a soldier's and sailor's home, says a Washington correspondent to The Herald. A private cablegram sent by the admiral to a friend gives the authority for the statement. The admiral has not communicated with the home committee, doubtless because they have never informed him of what they are doing.

Members of the committee and friends of the admiral have been expecting that he would decline to receive the home and would suggest that the money be employed for veterans. Treasurer Roberts, who is also treasurer of the Dewey fund, said that the committee would continue its collection and that when the sum originally determined upon had been raised, a determination would be reached relative to its disposition.

In naval circles generally and among officials, much satisfaction is felt at the admiral's decision. It is stated that he would find such a home as was intended a white elephant and preferred to live as he has been accustomed to.

John Armstrong Chanler Insane.

New York, June 13.—The supreme court has decided that John Armstrong Chanler is incompetent to manage himself or his affairs. Mr. Chanler was the former husband of Amelia Rives. Proceedings were begun by Lewis S. and Winthrop Chanler, brothers of John Armstrong Chanler, who alleged that he is incapable of managing his own affairs. Chanler was not in court, his counsel saying his condition is such that he could not leave Bloomingdale asylum. Dr. Samuel P. Lyon of Bloomingdale testified that Mr. Chanler became an inmate of that institution in 1897. He said Mr. Chanler was a paranoiac and incurable. Dr. Carlos F. Macdonald corroborated Dr. Lyon. An application will now be made to the supreme court for a commission to take charge of his person and estate.

Two New Mammoth Ships.

New York, June 13.—Second Vice President J. A. Wright, Jr., of the International Navigation company, announces that a contract for the construction of two new vessels for the line had been placed with the Cramps in Philadelphia. While neither of the vessels is intended to replace the wrecked Paris, both are to be ships of the first class. The new steamers will not be as fast as either of the flyers now in the service of the company, their contract calling for only 17 knots. They will be in every respect, so far as fittings are concerned, equal to the St. Louis and the St. Paul. Each of the new ships is to be of 12,000 tons register. It is expected that the vessels will be completed by the latter part of next summer.

Young Lady Accidentally Shot.

Hot Springs, Ark., June 13.—Miss Lena Jordan, daughter of John Jordan, met with a serious accident while visiting friends in the country. She was accidentally shot by a young lady friend, receiving a charge of buckshot in the right leg, tearing the flesh away and shattering the bone from the knee to the ankle. Her injuries, it is feared, will prove fatal.

Held Without Bail.

Galveston, June 13.—The examining trial of F. A. and A. B. Brooks and Maggie Rose, who are charged with murder in connection with the death of the unknown man who was found in Fat alley on the night of May 30, suffering from morphine poisoning, was concluded before Justice Hershberger. They were held to answer to the criminal court without bail.

Inexhaustible Cement Supply.

It is stated that the deposit of Portland cement discovered near Owen Sound, Ontario, and the manufacture of which was begun in 1889, is proving practically inexhaustible, and the daily capacity of the factory will soon be increased to 300 barrels. The prevailing price is \$2.10 per barrel of 350 pounds net. The product is claimed to be fully equal to the English, German or Belgian article, and it is said, will eventually take the place of importations to Canada, at least.—Philadelphia Record.

Real Estate News.

"Sire," said the pretender's secretary, "I am afraid we are losing ground."

Don Carlos frowned and then asked: "What! Has Spain gone and relinquished another batch of islands?"—Cleveland Leader.

Chamois Abound in Austria.

The chamois is usually identified with Switzerland, but the animal is less common there than in any other country which it inhabits. Austria is the real home of the chamois, where they are most plentiful.

A Protest.

"I move," said the legislator, "that we now take up the—"

"Mr. Chairman," interrupted a senator, "hasn't that white man's burden poetry been worked about enough?"—Philadelphia North American.

A Kiss of Gratitude.

Mrs. West—I suppose you have heard that our neighbor, Mrs. Tingle, caught her husband kissing their cook yesterday?

Mrs. East—Yes, but who can blame him? It's probably the first time he ever had anyone in the house that knew how to cook. —Boston Courier.

Curious Accidents.

Two angry sparrows were chasing each other through a suburb of Berlin, when one of them, in its haste, flew into a woman's face. Its sharp beak penetrated her eye and destroyed the sight.
